

Epidemics and Pandemics Research Project

You and a partner will be researching an epidemic/pandemic from a selected list. Selections include:

Swine Influenza
HIV/AIDS
SARS
Whooping Cough
Cholera
Zika Virus

Smallpox
Spanish Flu
Malaria
Leprosy
Typhus
Yellow Fever

Measles
Ebola
Polio
Dengue Fever
Tuberculosis
The Black Death/Plague

You will present this information using Google Slides:

Slide #1:
Name of Topic

Slide #2:
Definition of an epidemic

Slide #3:
Definition of a pandemic

Slide #4:
When did the outbreak occur?

Slide #5:
Where did outbreak start?
Where did it spread?
Is this an outbreak/epidemic/pandemic?

Slide #6:
What was the cause of the infection?
Does the virus or bacteria have a medical/scientific name?

Slide #7:
What are the symptoms?

Slide #8:
Did people die?
If so, how many?

Slide #9:
Are people still infected?
Why?

Slide #10:
How was it controlled or eradicated?

Slide #11:
Interesting information

Slide #12:
Provide links to websites that you used

Some topics have had more than 1 outbreak. You may need to provide multiple dates (including infection numbers, deaths and locations). Add slides if needed.
