

Reading a Food Web*Use with textbook page 313.***1. Interpreting Diagrams**

A diagram is a simplified drawing that uses symbols to represent objects, directions, and relationships. Interpreting diagrams correctly is an important part of science literacy. Study the diagram and answer the questions below.

- Which organisms are the producers?

- What does a grouse consume?

- What preys on deer?

- What preys on a great horned owl?

- What does a pika eat?

- What preys on a pika?

- How is a great horned owl connected to seeds?
